

# HonkTAP

## Contactless parking payment technology: no app, no touch, just tap!

Patent-pending technology allows drivers to pay for parking with a simple tap of their phone.

### Increased Compliance

Honk is the safest, easiest and quickest way for drivers to pay for parking - significantly reducing pain points to paying.

### Cost Savings

No coins to collect, no paper to supply, no cellular communication charges and no power to supply! CHA CHING!

### Health & Safety

Help drivers avoid high-touch areas like pay stations and cash.

### Security

Contactless payments have a unique, encrypted code every time they're used - this reduces fraud and eliminates theft.

## 3 Steps to Set Up

1

Collect parking lot details and rates

2

Determine quantity of stations & signs

3

Install & configure HonkTAP

## HonkTAP User Experience

Driver taps or scans phone near the HonkTAP smart station

Enter license plate & select parking duration on guest checkout page

Checkout & Pay!
